

SORT & SAVE

On average each Bendigo household produces 700kg of waste each year. Bendigo produces over 35,000 tonnes of industrial and building waste annually. By 2010 the Eaglehawk Landfill will be full – so we need to find a solution for our future waste.

Sorting your waste means:

- **You pay less** – there is no landfill charge on items such as metals, solid timber, bricks, cardboard, white goods and items that can be resold or recycled.
- **Reduced rates** on all separated green and concrete waste.
- **More jobs** as materials can be resold.
- You reduce **greenhouse gases** and extend the life of the landfill.

EXTEND BEYOND 2010

SORT & SAVE to sustain
